SKILLS

UI/UX Design

Design, prototyping, and visual systems in Figma. Graphics and illustration in Adobe Illustrator, Photoshop, and Procreate. Motion and video in Adobe After Effects, Premiere Pro, and Jitter.

Web Development

Web design and front-end development using HTML, CSS, and Shopify.

EXPERIENCE

Visual Design Intern | TEALEAVES

April 2026 – Present

- Develop packaging concepts through sketches, mood boards, mockups, and feedback.
- Create custom label designs for 3+ clients, iterating from briefs through final designs.
- Use AI-assisted ideation, visual exploration, and image generation to refine concepts.
- Design event materials for 16+ stations at a 250-guest culinary event.
- Update seasonal visuals and assets across the company's Shopify storefront.

UI/UX Designer | FLUI Design Jam

July 2026 – Present

- Established visual direction with a 5-person UI team, defining colour, typography, patterns, and icons.
- Created a shared visual direction deck and iterated with the president on design decisions.
- Developed medium- and high-fidelity web designs for 4 website sections.
- Defined UI details and interactions, then built Figma prototypes for developer handoff.

Product Designer | ScrapBooks

May 2026

- Collaborated with a 4-person team to prototype a proposed Apple Maps feature.
- Led user research with 35 Gen Z travellers to identify pain points and inform UX decisions.
- Created user journey maps and low-fidelity wireframes for the mobile experience.
- Used AI-assisted ideation and visual exploration to develop and refine concepts.
- Won Best Community Project at SparkJam 2026.

EDUCATION

Interactive Arts & Technology | Simon Fraser University

September 2024 – May 2029 (Expected)

- B.A. School of Interactive Arts & Technology
- Double concentration in Designing Interactions and Design & Development for Web & Mobile
